

At Genesis, our pharmacists are hormone therapy experts. We would love to do a consultation with you to get you feeling better! We offer consultations at no charge.

Any prescription we recommend would need your doctor's approval. Bring this form with you to your next doctor's appointment (or send it to them via fax or email) and ask your doctor to have the following labs drawn:

RECOMMENDED LAB TESTS	
All the following tests can be run with a single blood draw!	
DHEA-S	Ferritin
Estradiol	Vitamin B12
Estrone	TSH
Estriol	Free T4
Progesterone	Free T3
Free Testosterone	Reverse T3
Cortisol	TPO
Vitamin D	

When the results are in, we just need the labs faxed or emailed to us at:

Fax: **314-485-1049**

Email: **info@genesis-rx.com**.

We will evaluate your results and consult with you about your symptoms, and then make a recommendation to your doctor for hormone therapy, if appropriate. We will also discuss nutrition, lifestyle management, and supplementation – as those are all important to healthy hormone balance!

Please make sure to fill out the symptom questionnaire on our website so we can have as much information as possible when we talk with you!

We look forward to helping you feel better!
